About Event

Join us on August 22, 2026, for Build with Gemini, a full-day hackathon hosted with Lorong AI.

We've got three tracks for you to compete for.

- Best Use Of Gemma** : Our Gemma models have just crossed 1bn total consecutive downloads. Push the limits of what an Open Model can do within the limited time that you have
- Best Elderly Hack** : Nearly 1 in 3 people will be seniors by 2030. Modern tech isn't built for the elderly in mind so build something that ma' easier for them to stay connected.

3. **Most Creative Gemini Hack** : We've just dropped Gemini Flash 3.6. What's the wildest, fastest, or most creative way you can put it to work?

Stand to walk away with cash prizes for each track!
